"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss.

STAYING THE HAND OF DEATH.

There Is Said to Be a Certain and Rapid Means of Resuscitation.

Colonel Henry Elsdale, of the Royal engineers, claims to have discovered a certain and rapid means of resuscitating persons from the effects of suffocation. A sapper among the men under his command at Chatham was one day found enveloped in the folds of a half empty war balloon. The coal gas with which it had been inflated had suffocated him, and to all appearances he was a dead man. But efforts were made to restore him, though the pulseless heart and cadaverous face of the man gave no encouragement to persevere. In a moment of something like inspiration it occurred to Colonel Elsdale to send for some tubes of compressed oxygen, which had been prepared for the oxyhydrogen light.

This pure oxygen, at a very high pressure, was hurriedly conveyed into the mouth of the prostrate sapper by means of inserting the nozzle of the valve between his teeth, and the supply was "gently turned on" to the smallest extent. The effect was absolutely instantaneous. In an instant he opened his eyes and seized the nozzle between his teeth. In short, the sapper was not only thoroughly revived within a few minutes, but in half an hour walked away, quite well, to the barracks, and refused to go to the military hospital, as was suggested by his commanding officer.

Of course the objection will be raised that everybody has not tubes of pure oxygen at high pressure in readiness to apply to such cases. Happily oxygen in quantities as large as those administered is not needed, and it can be stored "in small, strong bottles made of the finest steel, with a valve giving an absolute hermetic seal."

These vessels may be as small as a soda water bottle, and may be made part of the medical stock of every doctor. Oxygen at any degree of compression required can, in fact, now be obtained, and the whole apparatus for restoring vitality can be packed in a small box quite portable.

What possibilities may not such a discovery as that to which we have drawn attention involve! It is equally available, we are assured, for those persons who have been asphyxiated by choke damp in coal mines, or by ordinary coal gas. People apparently drowned, and those insensible from long exposure in the rigging of a ship, might also be saved from an untimely end by what Colonel Elsdale calls "a dose of oxygen."

It would probably be invaluable, too, in cases of suffocation from the fumes of charcoal, or in cases where chloroform had operated injuriously on a weak heart. Such a discovery should at once occupy the attention of the Royal College of Physicians, with a view of ascertaining whether Colonel Elsdale has overrated the beneficent effects to be anticipated from the administration of pure oxygen.—London Chronicle.

MASSACHUSETTS REPUBLICANS.

The Republican State Convention of Massachusetts, which assembled in Boston yesterday, nominated Charles H. Allen for Governor; W. H. Hale for Lieutenant Governor; William Olin for Secretary of State; George A. Maiden for Treasurer, and Albert E. Pillsbury for Attorney General.

Henry Cabot Lodge, member of Congress, was permanent Chairman of the Convention. Mr. Lodge, who is the author of the Force bill, which passed Mr. Reed's House, and was defeated in the Senate by Stewart, Jones, Teller and Wolcott, said "the Republican party stands as a bulwark against the movement for free coinage of silver."

As Mr. Lodge is an acknowledged party leader in Congress and out of it, the small fry of the party will not question his assertion, and no one who watched the proceedings of the last Congress, or read the platforms of the Ohio and Iowa Republicans and the speech of Major McKinley will dispute it.

THE NEW YORK DEMOCRACY.

The Democratic party of the Empire State in convention assembled adopted a platform yesterday which is in line with the Democrats of the West and South on the silver question. The party in the East as well as in the West is now pledged to free coinage. This declaration on the part of the New York Democrats virtually disposes of Cleveland as a Presidential candidate in 1892.

Roswell P. Flower of New York City was nominated for Governor on the first ballot. Mr. Flower served in the Forty-seventh Congress, and also in the Fifty-first Congress. He was re-elected last November to the next Congress by 12,000 majority over Charles H. Blair, Republican.

The other nominees are William F. Sheehan for Lieutenant Governor; Frank Rice for Secretary of State; Frank Campbell for Controller; Elliott F. Danforth for Treasurer; Simon Rosendale for Attorney General, and Martin Schenck for State Surveyor and Engineer.

LINCOLN'S PROPHECY.

After the surrender of General Robert E. Lee at Appomatox, April 9, 1865, President Lincoln wrote to a friend:

"The best flower of American youth has been freely offered upon our country's altar that the nation might live.

"It has been a trying hour for the republic, but I see in the near future a crisis approaching that unnerves me, and causes me to tremble for the safety of my country.

"As a result of the war, corporations are enthroned and an era of corruption in high places will follow, and the money power of the country will endeavor to prolong its reign by working on the prejudices of the people until all wealth is aggregated into a few hands, and the republic destroyed. I feel at this moment more anxiety for the safety of my country than ever before, even in the midst of war."

A WHEAT SHIPPING POINT.

Duluth, Minnesota, is the great wheat shipping point of the Northwest. It is situated on Lake Superior and is a great railroad center. One morning last week nine hundred cars loaded with wheat stood on the several railroad tracks. Of these 411 cars were on the Northern Pacific, 394 on the Grand Northern, 145 on the St. Paul and Duluth, and 49 on the Northwestern. Railroad men say the receipts will average 500 cars a day, or nearly 300,000 bushels. The grain is shipped by water to Buffalo, N. Y., the rate being three and a half cents per bushel. One grain-grower, a Mr. Dalrymple of Dakota, who will have about 600,000 bushels to ship, thinks the average yield of wheat in the Northwest will be about 17½ bushels per acre.

The "Precinct Statesmen" who want office say "the Republican party favors free coinage." Henry Cabot Lodge, who has office, says "the Republican party stands as a bulwark against the movement for the free coinage of silver." The Precinct Statesmen try to deceive the people; Mr. Lodge does not.

The north-bound passenger train was wrecked in the Tehachipi mountains night before last and Colonel Harney, of San Francisco, who was standing on the platform of a passenger coach, was killed and several others injured.

The Gazette ought to know what it is talking about when it refers to the tin question. Tin is admitted free of duty; it is the iron in the "tin plate" that is taxed.

The report that the British had taken possession of the Turkish island of Mytilene is contradicted.

A train of three heavy passenger coaches left the Grand Central depot, in New York City, last Tuesday at 7:30 A. M. and arrived at Buffalo at 2:50 P. M. The train was run over the New York Central railroad, and made the run of 436½ miles in 440 minutes. Stops were made at Albany and Syracuse to change engines, and at Fairport to take water and cool a hot journal. The fastest mile was made in forty-eight seconds.

NEW YORK DEMOCRATS.

Synopsis of the Resolutions—Flower Nominated for Governor.

Special to the Journal.

SARATOGA, September 16.—Promptly at 10 o'clock this morning the Democratic State Convention was called to order. After a decision in regard to the County Democracy was presented the Committee on Resolutions reported.

The platform pronounces against the coinage of any dollar not of the intrinsic value of every other dollar of the United States and denounces the new Sherman Silver bill as a false pretense and hindrance to free bi-metallic coinage, and as tending only to produce a change from one kind of monometallism to another. This bill is declared to be a fit appendix to the "subsidy and bounty swindle of McKinley, and worse—than the war—tariff—Blaine—reciprocity—humbug, the squandered surplus and falsified representation and revolutionary proceedure of the Billion Dollar Congress, all of which were condemned by the people in the great uprising of last November."

The people of the State are congratulated upon the beneficient results which followed the election of a Democratic Assembly last year. The Republican party is defeating in the Assembly bills passed by the Democrats. Continuing the platform reads:

"Thus has the Republican party continued to betray the people's interests. It defies the Constitution and denies fair representation in the Legislature to 1,300,000 new inhabitants of the State by refusing to pass the Enumeration bill."

It inflicted a blow upon the best welfare and prosperity of the State by depriving New York of the World's Fair because a Republican leader could not control its Board of Directors. By that act New York was deprived of the benefit of the expenditure of hundreds of millions of dollars within her boundaries. The people will not forget the most conspicuous agent in this partisan crime—who is now his party's candidate for Governor.

The platform favors home rule for counties and municipalites, low taxes and an economical administration. It demands the enactment of a just, equable and comprehensive excise liquor law, framed in accordance with existing public sentiment as has been repeatedly manifested.

It opposes all sumptuary legislation that needlessly interferes with personal liberty for the individual citizen. It demands an extension of electoral reform, with a view to preventing profuse expenditures of money by candidates. It favors a revision of tax laws, whereby personal and corporate property shall be made to bear its full and just burdens. It also declares that labor interest should be fostered.

Legislative provision for a proper exhibit from the State at the World's Columbian Exposition is advocated.

The oppression and expatriation practiced by the Russian Government upon its Jewish citizens is condemned and the Government at Washington is called upon to bring about a cessation of these cruelties.

In closing, the administration of Governor Hill is indorsed, and his faithful discharge of the responsibility is declared to justify the continuance of the trust imposed on him by the Democratic party.

The platform was adopted with cheers.

The following was also passed:

Resolved, That this Convention views with gratification the growing friendly feeling toward the Democratic party of our colored citizens of this State, and they are welcomed to our ranks with the assurance that within our party discrimination on account of race or color is discountenanced.

Then a motion was made to proceed with the nominations, and Major Porter nominated Roswell P. Flower for Governor. The nomination was seconded on behalf of Tammany by Colonel Fellows. Bourke Cockran also seconded the nomination of Flower.

Thomas Dewitt, of Kings county, placed Alfred C. Chapin in nomination for Governor.

Flower was nominated on the first ballot: Flower, 334; Chapin, 43.

Charles V. Adams, of Kings county, Chairman of the delegation, made the nomination unanimous amid the wildest of scenes.

The new State Committee convened after the adjournment of the Convention. Edward Murphy, Jr., of Troy, was re-elected Permanent Chairman.

Flower to-night forwarded to the Secretary of State his resignation as Member of Congress. His successor will be elected in November.

Suit Against the Savage Management.

Special to the Journal.

SAN FRANCISCO, September 16.—M. W. Fox, one of the prominent stockholders in the Savage Mining Company, this morning filed an important suit against H. M. Levy and other Directors of the company. The plaintiff alleges that the Directors have entered into a fraudulent contract with many milling companies in Virginia City and near there to reduce the ores of the Savage mine in an imperfect and dishonest manner, and asks for a permanant restraining order prohibiting the Directors from further milling ores, and demands $500,000 as damages for the gold and silver fraudulently stolen from him by the Directors.

Funeral of Mrs. Fair.

Special to the Journal.

SAN FRANCISCO, September 16.—The funeral services over the remains of Mrs. Theresa Fair, wife of Senator James G. Fair, were held at St Mary's Cathedral today. Archbishop Riordan officiated and was assisted by Rev. Father Pendergast and the Catholic clergy of the city. The remains were interred at Mt. Calvary Cemetery.

THE TEHACHIPE WRECK.

What the Coroner's Jury Find.

BAKERSFIELD, Cal., September 16.—The jury at the Coroner's inquest find that W. Harney came to his death by a railroad collision last night, by being jammed between the cars. The cause was gross negligence of the attachees of train 18 of the Southern Pacific company in not setting the hand brakes at the time it was standing at tunnal 15, proving it by the testimony that after the train had escaped it was controlled and stopped by hand brakes at tunnel 12, and in not sending back and notifying freight train 22 that was following, and, further, that train 18 was insufficiently supplied with men to properly handle it.

The Irrigation Congress.

Special to the Journal.

SALT LAKE, September 16.—In the Irrigation Congress to-day Francis G. Newlands of Nevada argued that the field of individual effort in the matter of irrigation was now exhausted and the time was ripe for the action of the Government, and the United States should make grants in arid regions with a view to developing the school interests. The Government should also enforce the preservation of forests. A resolution was introduced, and referred to the calling for an issue of bonds amounting to $150,000,000 for irrigation bonds to be redeemable in treasury notes issued against them.

In the afternoon Judge Goodwin, of Salt Lake, Senator Warren, of Wyoming, and W. H. Mills and John P. Irish were chief orators. Irish did not favor the ceeding of lands to the States and Territories by the National Government, but thought that the State Government should assume the relation of trustor and trustee on a plan similar to that of Illinois in the days of Stephen A. Douglas. The question of irrigation he considered largely one of population. Congress should be asked to deed the arid lands to the respective States and Territories in trust.

Earthquake in Oregon.

Special to the Journal.

SALEM, Or., September 16.—At 8:40 this evening two shocks of earthquake lasting about ten seconds followed one another in quick succession. The first shock caused buildings to shake quite perceptibly. The vibrations were from east to west.

SALEM, Or., September 16.—This evening at 8:40 P. M. an earthquake shock was felt here quite distinctly. There was one abrupt shock of a second's duration followed by gentle undulations which exhausted themselves in about four seconds. In larger brick buildings and all large structures the shock was clearly felt.

Railroad Tunnel Caved In.

Special to the Journal.

BAKERSFIELD, Cal., September 16.—Tunnel 17, near the train wreck, has caved in and another wrecking train has gone up with plenty of timbers, but it is thought no trains will get through for two or three days. The train from the south, due here at 8 o'clock this morning, arrived after 3 o'clock this afternoon, the mail, express and passengers having been transferred at Girard and an accommodation train was immediately made up and left for Sacramento.

Silver Purchases Completed.

Special to the Journal.

WASHINGTON, September 16.—The Treasury Department to-day completed the purchase of silver for the current month. No further purchases will be made until October the 2d.

The amount of silver offered to day for sale was 800,000, ounces and the amount purchased 400,000 ounces, ranging in price from .97 to .9720. The purchase of silver bullion at the local mints during the month aggregated 351,264 ounces.

Failed to Agree.

Special to the Journal.

MODESTO, Cal., September 16.—The jury in the case of H. T. Fuller, charged with murder, was discharged this afternoon. They were unable to agree, standing six to six. Previous to this, the jury brought in a verdict of "guilty of manslaughter, committed in self defense," with recommendation for mercy. The Judge instructed them that the verdict was improper and contradictory. They then retired and failed to agree.

Albertson Bound Over.

Special to the Journal.

TACOMA, September 16.—The testimony in the Albertson case to-day was unimportant. The witnesses simply corroborating the evidence which had been previously given.

At the conclusion of the arguments Justice Sharp bound the defendant R. B. Albertson over to the Superior Court in the sum of $5,000, with W. E. Bailey, Captain R. S. DeWolf and Herman Chapin of Seattle as sureties.

Fire In Railroad Shops

Special to the Journal.

PORTLAND, Or., September 16.—This morning a fire broke out in the Southern Pacific car shops several miles south of this city, and destroyed the repair shops and several outbuildings. The machine shop was saved after a hard fight. Several passenger coaches were consumed. The estimated total loss is between $40,000 and $50,000. It is believed that the fire was communicated from one of the furnaces.

Balmaceda's Silver.

Special to the Journal.

SOUTHAMPTON, September 16.—The British steamship Moselle arrived to-day from Montevideo having on board $800,000 in silver shipped by ex-President Balmaceda of Chili to Europe in order to pay for war materials. This is silver conveyed to Montevideo by the Espiegla. The bullion will be stored in the Bank of England pending a settlement of legal questions involved.

The Grand Lodge of the Brotherhood of Telegraphers is in session at St. Louis, Missouri.

Deafness Can't Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

George R. Walker, of Winnemucca, celebrated the seventy-seventh anniversary of his birth last Tuesday. Uncle George, who is well known throughout Nevada, returned from a visit to the East, which he left in 1849, to find his store in ashes. Nothing daunted, he is going to work to build again, and has made up his mind to spend the rest of his life in the State o Nevada.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

Hood's Sarsaparilla

Is Peculiar to Itself

Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine,

A good many strangers are to be seen on the street, presumably here to take in the Fair next week.

John R. Dixon, Jr., is having a neat little cottage built on the corner of Fourth and Center streets.

"Coming events cast their shadows before." The town is receiving a goodly number of roughs.

F. C. Updyke left last night for San Francisco in response to a telegram stating that his son, Lee, was ill.

The precipitation night before last amounted to 44-100 of an inch, according to the University rain gauge.

Mrs. J. M. Gregory, who has been visiting her parents at their home in Washoe Valley, returned home last night.

The mountain peaks were white with snow yesterday morning. In fact it snowed at Truckee and some distance below that town.

Williamson, the alleged Canadian forger, was not arrested night before last by the United States Marshal, as was erroneously reported.

Reno Division No. 2, Knights of Pythias of Reno, will visit Wadsworth to-morrow to institute a division of the Uniform Rank in that place.

Enough cider has been made in Eastern Pennsylvania this season, says a Reading dispatch, to fill the Schuylkill to its brim were that river to go dry.

John Sibbold of Golconda was on yesterday's train homeward bound. His foot was crushed on the Union Pacific last Spring while he was on the way to Omaha with cattle, and he still limps.

Judge T. B. McFarland of the Supreme Court of California, passed through yesterday on his way East. He left Pennsylvania over forty years ago, and has not been east of the Rocky Mountains since.

L. L. Crockett has resigned the position of Supervisor at the Insane Asylum, to take effect October 1st, and N. W. Roff, Secretary of the Electric Light Company, has been appointed to fill the vacancy.

The latest device is the "instep pad," which is designated to make an aristocratic high instep for the woman who is so unfortunate as to have a low-bred foot. It is simply a linen pad, fitted directly over the instep.

The Silver State says that Chris. Diehl, of Winnemucca, who was burned out by the late fire, has completed arrangements to erect a large two-story stone building on the site of the burned one. Chris. has faith in the future of Winnemucca.

The second trial of Thomas C. Horn is set for Tuesday, September 29th, in the District Court. Horn is under indictment for robbing the faro bank at the Palace Hotel. His first trial resulted in a disagreement of the jury, six being for acquittal and six for conviction.

Master R. M. Fulton, the 17-year-old son of Mr. and Mrs. J. M. Fulton, left yesterday for Annapolis, Maryland, where he has to report at the Naval Academy next Monday to be examined for a cadetship. The youth will just have time, if the trains make close connection, to get to the Academy.

There is a war of races at Forest Hill, California. A Spaniard named Nunas, ended a prolonged spree by smoking opium and then dying. The Chinese were detected while taking the body to a pond, and arrested. The Spanish friends of Nunas think he was murdered and the Chinese have to be protected from them.

INDIAN RESERVATIONS.

A Commission to Negotiate For Their Transfer to the Government.

A commission appointed by the President to negotiate with the Piute Indians for the cession of a part of Pyramid Reservation and of Walker Lake Reservation to the Government arrived in Reno yesterday and has its headquarters at the Riverside. The Commissions are E. J. Ormsbee, ex-Governor of Vermont, Chairman, W. A. Morgan of Kansas, Cyrus Beede of Iowa and Hawkins Taylor, Jr., Clerk.

The Commission visited Wadsworth and consulted with some of the leading Indians and will return to that place to-day. There is more land embraced in the reservation than is required by the Indians, and the object is to get the Piutes to relinquish their title to the lands and throw them open for settlement to the whites. Our Senators have been endeavoring to accomplish this object, and at their solicitation the Commission was appointed. It is said that there is considerable agricultural lands as well as mineral lands on the Walker Lake Reservation that are of no use to the Indians, which would be occupied at once by white men if they were opened for settlement.

Wedding Bells.

Last evening at 8 o'clock about thirty-five friends and invited guests assembled at the residence of Mr. and Mrs. W. J. Hollingsworth to witness the marriage of their eldest daughter, Aletia, to Henry F. Ruhe. Rev. James H. N. Williams officiated, and Miss Gertrude Hollingsworth, the bride's sister, acted as bridesmaid and Will Ferguson as best man. After the ceremonies the happy couple received the congratulations of their friends and repaired to the dining hall, where all partook of a sumptuous repast. The following is a list of the presents:

The Next Play at the Opera House.

The play which the Dickson Company will present at McKissick's Opera House next Saturday evening is the production of Mrs. R. Pacheco, wife of the ex-Governor of California, and known as one of the most brilliant women in America. The play is on the style of "The Private Secretary," and is said to be even funnier. It deals with the adventures of a blue-blooded young scapegrace, Tom Stanhope, who loves the companion of his father's ward. The old gentleman desires him to wed the ward, and, upon his refusal, drives him from the hotel where they are stopping. In order to be near his sweetheart, Tom disguises himself after a photograph which he has found, and which is one of a pair of twin brothers, one of whom has a wife and two children and the other a fiancee living in the same house. All three arrive about the same time, but unconscious of the other's presence, and the complications which ensue are something fearful and wonderful.

FIRE AT THE UNIVERSITY.

Considerable Commotion but Small Damage.

Yesterday, a little before noon, a fire was discovered in the chemical laboratory at the University. The alarm was given and by the prompt and well directed action of the professors and cadets, the flames were extinguished.

The fire was caused by a gas lamp that was burning under the dryer. The lamp became so hot that the rubber tubing was melted. The gas escaping from the end of the tube caught fire and this soon ignited the shelving on top of the desk. The desk had become well kindled before the flames were discovered. The damage, including broken windows and reagent bottles, is about $25.

The Silver State says General Buckner has taken about four tons of gold ore to Winnemucca for shipment from his mine in Winnemucca Mountain. The ore assays $1,600 a ton in gold and the mine is situated within two miles of the railroad. The Silver State predicts that Winnemucca will soon be the leading mining camp of the State.

SUICIDE BY AMMONIA.

The Terrible Agony Does Not Prevent Its Use.

No poison brings death with more maddening agony than ammonia, but that fact does not seem to discourage the suicide. The man Harrowitz, who deliberately swallowed a fatal dose of the drug in New York recently, is only one of the many who have gone the ammonia route to death in spite of the excruciating pain. Dr. Blyth has recorded thirty cases of ammonia poisoning in the small London district of which he is health officer; Professor Mitchell mentions twenty-two cases, and four have occurred during the short time Dr. Jenkins has been connected with the coroner's office in New York.

Cases of slow poisoning from ammonia are of constant occurrence among men who work in its manufacture, or even in decomposing substances which give it off in considerable quantities. Ammonia, slowly and from day to day taken into the system, causes the complexion to lose its freshness, and the skin of men who get heavily impregnated with it has a disagreeable blotched and discolored appearance.

Taken into the stomach from day to day in even the small quantities used to adulterate food, such as baking powder, it not only injures the complexion but attacks the lining of the stomach, and is the source of much general ill health.

The recent rapid increase in the use of ammonia for various purposes, and the consequent increase in its manufacture, have made it one of the most easily obtained poisons and, although everybody is familiar with it in some form, there is a surprising amount of ignorance of its dangerous qualities. Its use as an adulterant in any food preparation is simply a crime, and as a crime should be punished.

Susanville Notes.

SUSANVILLE, September 15, 1891.

A. B. Blake, who shot and killed James Armstrong in this county about three weeks ago, was discharged on preliminary examination, re-arrested and tried before the Superior Court Judge sitting as a magistrate, and by him discharged. The evidence emphasized the fact that self preservation is the first law of nature.

James Dodson, arrested the other day for selling liquor to an Indian, was sentenced to thirty days durance in the county jail. We are so far from Federal authority that Constables are frequently called to take cognizance of such infractions of the law here.

A rain of several hours' duration to-day hindered threshing in the Valley. Snow fell in the mountains. Crops of grain are turning out well. REX.

INSPECTING POSTOFFICES.

What Mr. Wanamaker Wants Done.

The Postmaster General has issued an order directing the postmaster at every county seat to inspect all postoffices in the county and to make a full, complete and detailed account of the same. If our Nasby complies with this order he will have to go to Buffalo, in the northern part of the county, 110 miles away, and spend a week or more in making the trip to that office alone. As no provision is made for paying expenses, trips of that character will make quite a hole in a postmaster's salary.

Daniel Green, arrested by Constable Upson for stealing a sack of mail from a postal car, was examined yesterday before Commissioner Waldo, of the United States Circuit Court, and held to answer before the United States Grand Jury in the sum of $1,000, in default of which he was taken to State Prison for safe keeping by Marshal Moore.

SUMMONS.

IN THE District Court of the State of Nevada, in and for Washoe county—The State of Nevada sends to G. W. De Forest, GREETING:—You are hereby required to appear in an action commenced against you as defendant by Mary J. De-Forest as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to obtain the judgment and decree of the Court dissolving the bonds of matrimony now existing between you and said plaintiff, upon the ground of wilful desertion and failure on your part for more than one year to provide plaint. iff the common necessaries of life, and for the care, custody and control of Maud A. De Forest, minor child, issue of said marriage, and that plaintiff be permitted to resume her maiden name. All of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.
In testimony whereof, I have hereunto set my hand at Reno, this eleventh day of August, A. D. 1891.
T. V. JULIEN.

SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for Washoe county.
The State of Nevada sends to Anna Stouter greeting: You are hereby required to appear in an action commenced against you as defendant by Joseph Stouter as plaintiff in the District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgement by default will be taken against you according to the prayer of said complaint. The action is brought to obtain the judgment and decree of this Court dissolving the bonds of matrimony heretofore and now existing between you and said plaintiff on the ground of habitual gross drunkenness contracted since said marriage. All of which more fully appear from the complaint which is on file in the office of the Clerk of said Court, at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.
In testimony whereof I have hereunto set my hand at Reno, this 12th day of August, A. D. 1891.
T. V. JULIEN.

TWO ALTERNATIVES.

A Shrewd Young Man Chooses An Unfair but the Expensive One.

A young man came to this city some time ago with no capital, but with an experienced and expert knack of getting rid of money. He brought letters introducing him to the favorable attention of several rich and influential New York business men. His relatives in the west—persons of good social standing and some means—were very glad to grant such courtesies to him in consideration of his departure from their immediate neighborhood. He had proved an expensive indulgence for them.

One of the gentlemen upon whom the young man called was the president of a flourishing down town bank. This bank president had been the intimate friend of the young man's father, and, without thinking of the consequences, he offered to do anything in his power to advance the interests of the son of his old friend. The young man had "a business scheme" in his head and he wanted credit at the bank until his expected remittances arrived. The bank president told him that he might draw up to $1,000.

The checks came in promptly for large and small amounts until the young man's overdrawn account amounted to $1,150. The hard headed cashier then went to the president and suggested that the bank ought to have some collateral. He frankly admitted that he had no confidence in either the young man's schemes or his intentions. The president saw the force of his cashier's suggestion, but, still chary of offending his old friend's son, he wrote a personal letter to the young man, saying:

MY DEAR YOUNG FRIEND—It has been a pleasure for me to accommodate you with a small line of credit at the bank. Sufficient time, however, has elapsed, I think, to enable you to realize on your own resources, and I trust that you are now able to make a settlement. In fact, I am constrained to say that you must either make your account good or cease drawing checks on the bank.

The young man was not thin skinned, and this letter did not offend him. He smiled as he read the closing sentence, and stepping into the office of a friendly broker, he penned the following note:

RESPECTED SIR—Accept my cordial thanks for your kindness. Of the two alternatives that you suggest I am obliged to accept the latter. I shall cease drawing checks on your bank. With kindest regards, etc.

The kind hearted bank president was somewhat nonplussed by this reply, and he showed the note to his cashier. That practical functionary looked over his gold rimmed glasses at his superior and said: "Umph! well, that is pretty slick. But you have got rid of him cheaper than I thought you would."—New York Times.

Why Eels Are Objectionable.

Inasmuch as eels must go to sea in order to propagate their species, they are found not to multiply at all when placed in ponds that are landlocked, although in such places they will grow rapidly and be healthy. It costs so little to purchase young ones by the quantity that this is no obstacle to the usefulness of stocking inland waters with these fish. They have many very important advantages from the economic point of view, inasmuch as they will feed on anything dead or alive, will thrive in water clear or muddy and at any temperature, and require no looking out for.

However, in rivers like the Susquehanna, where gill nets are used, eels are very undesirable. It is not unusual upon hauling the nets in that stream and in others farther south to find that the catch has been entirely eaten up by myriads of the squirming robbers, which have left little besides heads and backbones. It has been found advantageous by the fish commission to plant eels in the upper great lakes and in the Mississippi. They have also been introduced very successfully in California.—New York Sun.

Curved Trunks Get Straight.

Possibly the greatest manifestation of growth power that could be referred to is in the power of many trees to curve their trunks when partly blown over, though they may have had them straight for a quarter of a century. This curious subject is yet in its infancy as a branch of study; but so far the curving has been noticed more in connection with palms and coniferous trees. A trunk may be, say twenty or thirty feet high and a foot thick, and as straight as a gun barrel. Should it, from any cause, become tilted in a few years the whole trunk from the ground to the summit will be found curved like a bow.

It was at one time thought that plants grew toward the light, and we come to believe that "as the twig is bent the tree is inclined," but it now seems that "grew" is not here an active verb—the mass of foliage—that which was grown as well as that which is growing—is really lifted—lifted by some power in nature so far entirely unknown to vegetable biology.—Thomas Meehan in Philadelphia Ledger

New and Harmless Antiseptic.

A new antiseptic agent called microcidine, which is composed of 75 per cent. of naphthol of sodum and 25 per cent. of naphthol and phenyl compounds, has been tried in France. It is a white powder, soluble in three parts of water. The solution, which is cheap, is said to be a very effective antiseptic, without being poisonous or caustic or injurious to instruments or linen. Its antiseptic properties are inferior to those of corrosive sublimate or naphthol, but surpass those of carbolic and boracic acids ten and twenty times respectively. The solution has given excellent results in dressing wounds.—New York Telegram.

A New Hay Rake.

A westerner has invented a hay rake which he thinks will avoid some of the defects of those now in use. It is a combination of the sulky and revolving rakes. There are the wooden teeth of the revolving rake hanging under and revolving round the axle. The proper motion is given by means of a hinged back. The idea is a sulky rake which will not gather dirt and rubbish, and will drop the hay in the windrow without dragging it several feet or yards beyond.—New York Journal.

Ease up a little, then, upon merely physical labor and material achievements. Draw a black line between essentials and nonessentials. Adopt early hours and a more healthful diet; demand of every day an hour or more of rest and see how the roses of youth will linger even into the desert and blight of age.—Chicago Herald.

REMARKS AND CONDITIONS.

Nominations and entries to all stakes must be made to the Secretary on or before the 22d day of August, 1891. Entries for the purses must be made two days preceding the race, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 6 P. M. Horses entered in purses can only be drawn by consent of the Judges.

Entries to all trotting and pacing races will close September 5th, with the Secretary.

Five or more to enter and three or more to start in all trotting races.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races.

All trotting and pacing races are the best three in five, unless otherwise specified; five to enter and three to start. But the Board reserves the right to hold a less number than five to fill, by the withdrawal of a proportionate amount of the purse. Purse to be divided pro rata. Entrance fee, 10 per cent. on purse: to accompany nomination.

National Association Rules to govern trotting; but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear, they may contest for the entrance money, to be divided as follows: 66⅔ to the first and 33⅓ to the second.

In divided purses no horse shall receive more than one money.

In all the foregoing stakes the declarations are void unless accompanied by the money.

Please observe that in the above stakes, declarations are permitted for a small forfeit.

In all running races entries not declared out by 6 P. M. of the day preceding the race shall be required to start.

When there is more than one entry by one person, or in one interest, the particular horse they are to start must be named by 6 P. M. of the day preceding the race. No added money paid for a walk-over.

Racing colors to be named in entries.

In trotting races drivers will be required to wear caps of distinct colors which must be named in their entries.

Each day's races will commence promptly at 1 o'clock P. M.

All entries must be directed to C. H. Stoddard Reno, Nevada.

W. H. GOULD, President.
C. H. STODDARD, Secretary.
